## ABOUT ME

**Hard-working, responsible and fast learner**, I am always with a book in hand and willing to learn something new. Graduated in Business Administration, I have worked alongside important businessmen before becoming a developer. I am very comfortable facing challenges, working with deadlines and being a team player. My communications skill is one of my strengths. But above all is my passion for learning. And that is the reason I fell in love with app/web developing! No matter how hard you study, there's always something new to learn!

## COMPETENCIES

**React.js**  
**JavaScript**  
**HTML & CSS**  
**Git & Github**  
**Scrum**

## ACADEMIC EDUCATION

**UFRGS - 2013/1 - 2019/2**  
B.S. in Business Administration - Federal  
University of Rio Grande do Sul (UFRGS), Porto  
Alegre - Brazil

## LANGUAGES

Fluent **English**  
Native **Portuguese**  
Advanced **Italian**  
Intermediate **Spanish**

## COMPLEMENTARY EDUCATION (2021 - 2022)

**Introduction to Computer Science (120h)** - by **HARVARD** University.  
**React - The Complete Guide (incl Hooks, React Router, Redux) (50h)** - by Maximilian Schwarzmüller.  
**Full React Course - Learn Fundamentals, Hooks, Context API, React Router, Custom Hooks (10h)** - by freeCodeCamp.org.  
**The Complete JavaScript Course 2022: From Zero to Expert! (70h)** - by Jonas Schmedtmann.  
**Build Responsive Real-World Websites with HTML and CSS (38h)** - by Jonas Schmedtmann.  
**Agile Exclusive Mentorship: Scrum Methodology and Business Agility (160h)** - by API Ágil.

## WORK EXPERIENCE

**BRILIA - NOV/2019 - TODAY**

**Financial Analyst**

SAP - Internet Banking reconciliation; financial analysis on cost, sales and customer portfolio; assist with customer service and conflict resolution (Customer Success agent); debt collection on defaulter clients.

**ACTIA DO BRASIL - FEV/2019 - NOV/2019**

**Internship - Working directly with the General Director.**

Monthly analysis of the company's financial results (revenues, gross margin, customer evolution); cost analysis on products that showed an increase; development of strategies and training for the Sales Department; creation and update of databases.

# FRANKLIN MARTINS

**It is never easy** to choose a path for our future when we are young. Some people want to follow their parents trails, while others want freedom, or even more money.

Even though we have dreams and desires, the truth is we are merely teenagers when we have to enroll to a university and kickstart our professional life.

I always knew I wanted to work with numbers and logic problems, but to choose between Engineering, Economics and Business was almost impossible. When I was filling my application, I went with Business.

Today, although I see it is not my future, I am glad I went through that process, because it helped me get where I am now. I have learned **communication, team work, leadership, dealing with pressure and working with deadlines.**

Above all, through Business I got in touch with Computer Science. And this is where **it all changed.**

As I am a fast learner, I started taking course after course and talking to people already working in this field. The more I was immersed in the world of coding and programming, the more I wanted to know. Even more importante: **I felt I had found my true North!**

And this passion, alongside my hunger for learning, is the key to my future.

**My future is helping YOU achieve all your goals, while we grow together!**

I know I look like a "newbie" in the field of developing, designing and creating applications, but I can assure you I am an extremely committed, ethical and fast learner professional. If you dare to "bet" on me, I will be **110% focused on being your best hiring EVER!**

## Let's thrive together:

- 1. You believe in me (despite my lack of "professional experience").**
- 2. We work together as a TEAM!**
- 3. I make your dreams come TRUE!**

**"Whatever you are, be a good one. "**

**- Abraham Lincoln**
